BECAUSE JUSTICE DOESN'T HAPPEN BY ACCIDENT

Which five-lawyer firm continues, year after year, to obtain multimillion-dollar results for their injured clients? Which lawyers treat clients with compassion respect and dignity? Simply put, the answer is Robinson & Yablon, PC.

Defendants often rely upon the substantial resources of their insurance companies who aggressively defend cases even when there has been clear negligence. Against these odds, Robinson & Yablon, time and time again, achieves success due to its unwavering commitment to its clients. When litigation battle lines are drawn, the biggest verdicts and settlements are achieved by the few who outlast, outwit and overwhelm their adversaries, and such has been this firm's mentality since day one.

Joel Robinson, selected for inclusion in the 2011 publication of *Super Lawyers*, says "We prepare every case for trial. That focus, effort and perseverance begins the moment the client walks through the door. Our clients' problems are our problems. Their successes are our successes."

Robinson & Yablon manages their caseload so each client is never treated as a number, but rather as an individual.

Robinson & Yablon's record and results speak for themselves. They take on even the most challenging cases – be it construction, automobile and premises accidents, dangerous products, victims of horrible crimes and injuries involving multinational corporations – and have the expertise required for success.

"Not only do we work hard to win, we do so in a way which clients appreciate," says Lawrence Yablon. "The size of monetary awards and the speed with which they are achieved leaves a lasting impression."

Beyond former clients' recommending its services, some of the firm's greatest compliments come from judges, referring attorneys and adversaries.

Partner Andy Laskin explains, "When a person is injured, regardless of whether the case is big or small, the client deserves the attention, respect and passion of the lawyers they hired."

From inception, the firm's clients witness firsthand why justice doesn't happen by accident.
